

Flashlight Tag

What do you need to play flashlight tag?

- 3+ people
- flashlight
- extra batteries (always good to have some for back up)

How do you play flashlight tag?

1. Wait until evening or dark. If you don't feel comfortable letting the kids play in the dark, evening will work or play along with the kids and have some fun!
2. Choose one participant to be 'it' for flashlight tag. If more than one person wants to be 'it' first, flip a coin.
3. The 'it' person gets the flashlight, covers their eyes and begins to count to 50 or 100. The higher the number, the more time participants have to hide during flashlight tag.
4. After the 'it' person counts to the designated number, they can begin looking for the hiders using their flashlight.
5. Once someone is found, the 'it' person must shine their flashlight beam on the hider and call their name out loud.
6. Once hiders are tagged with the flashlight beam, they are out and must go wait at a designated spot (tree, mailbox, porch, etc) until all the hiders are found.
7. Once everyone is found and back at the designated meeting spot, choose a new 'it' person and start a new game of flashlight tag.
